BUSINESS OFFICE LOCATION

The Business Office of the Company is located at 470 Commercial St., Astoria, Oregon. The Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturday.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save your time if you have your bill with you. When paying by mail, please enclose the bill stub with your check. If you need additional assistance or explanation regarding your bill, the Business Office will be glad to help you.

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ERRORS

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between a telephone on land and a ship equipped with a radio telephone or between ships when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a telephone on land call "Long Distance" or dial "Operator" and ask for "Marine Operator" and tell her you wish to place a call to a ship, giving her the name of the ship and its approximate location.

DIAL SERVICE

LOCAL CALLS

Do not start to dail until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

WARRENTON—Telephone numbers of other customers on your line will have the same first three figures as your telephone number. To call another party on your line, dial "9", then the last figure of your own number and then the last figure of the desired party's number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

Two friendly telephone habits: QUICK to answer when your bell rings, SLOW to hang up when you call someone who does not immediately respond. In calling others, remember that the called person may be almost there—so wait a few seconds longer.

2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Remove your finger and let the dial return naturally, without forcing or hurrying.

A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department. Party-Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone, always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.

Play Ball . . .

When you call somebody by telephone, "play ball" with him by giving him time to answer. Please don't hang up too soon.

2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Lift your finger and let the dial return naturally, without forcing.

It is our purpose to provide service just as rapidly as possible for all who want it. We want to make the telephone more valuable and useful to everyone . . . to grow with the West and to help the West grow.

How to get the most out of your telephone service

It's wise (and thoughtful) to follow these simple golden rules for good telephone service:

- Encourage the youngsters to be considerate telephone users...and you won't miss important calls.
- Give the person you're calling plenty of time to answer...at least a full minute...and you'll reach him more often.
- Be sure that the line is free before making a call when you're on a party-line.
- Look up any numbers you're not sure of and... keep personal lists up-to-date.

Built-in telephone outlets cost so little... mean so much

At the time a house is built, the cost of installing conduit for a number of telephone outlets is small...and it adds real value to the home. It's a wise economy, even if only one telephone is needed immediately.

Additional telephones can be added when you want them...where you want them...without running exposed wires along baseboards or moulding or drilling through floors. When you build, plan for a number of outlets. Call your local Telephone Business Office and ask for free Architects and Builders Service.

Get the right number first

Get it from the directory. If there's any doubt about it, look up the number before you call. It's mighty easy to get numbers twisted if you depend on memory alone. And since looking up numbers in the directory is so easy, it's a good way to save time in making your calls.

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ERRORS

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in the making up or printing of its directories.

DIRECTORIES OF OTHER CITIES

Telephone directories of other cities may be consulted at our Business Office. We cordially invite you to make use of these directories. If you desire any copies they may be secured at an additional service charge by arrangement with the Business Office.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

DIAL SERVICE

LOCAL CALLS

Do not start to dial until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

CANNON BEACH—If you have Two or Four Party Line service, DIAL "Operator" to obtain assistance.

If you have Ten Party Suburban Service, DIAL the desired number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

You Can Help

You want the best telephone service possible. We want you to have it! Will you cooperate with us in the following ways, in order that your telephone calls at all times may be clear and satisfactory?

- Please speak directly into the transmitter with lips just clearing the mouthpiece.
- Please speak distinctly and not too rapidly.
- Please do not shout—just use your normal talking voice.
- Please be sure of the number before calling. If in doubt, please look it up in the directory. That saves you annoyance — and somebody else unnecessary steps.

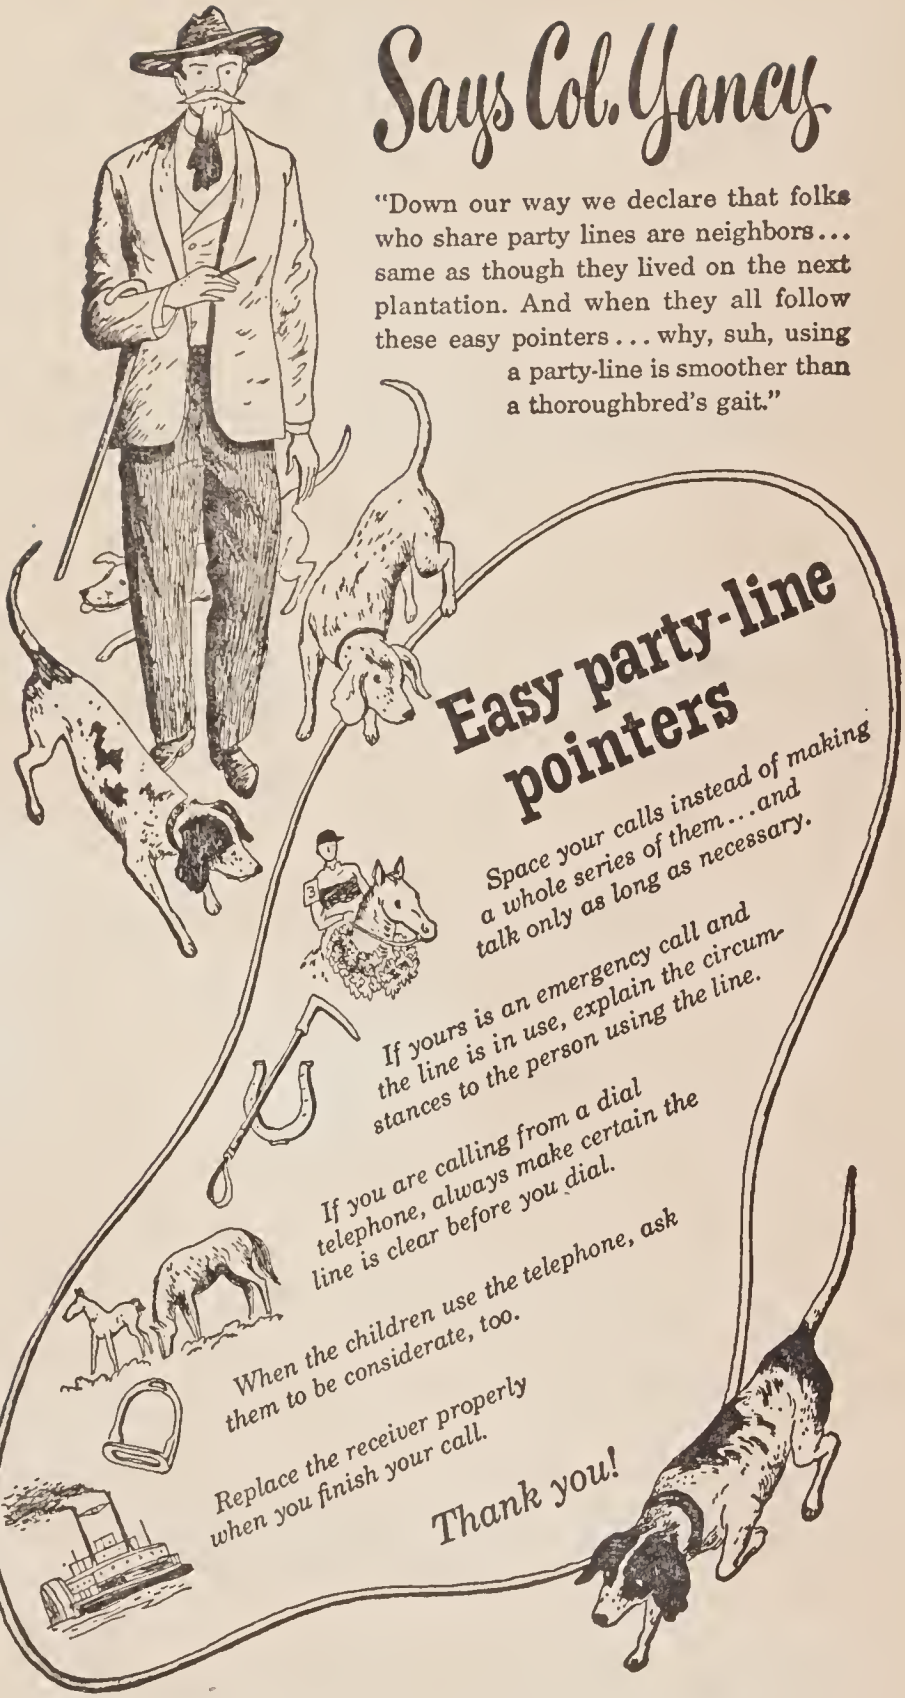
Telephone Directory



Says Col. Yancy
"Down our way we declare that folks who share party lines are neighbors... same as though they lived on the next plantation. And when they all follow these easy pointers... why, suh, using a party-line is smoother than a thoroughbred's gait."
Easy party-line pointers
Space your calls instead of making a whole series of them... and talk only as long as necessary.
If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
If you are calling from a dial telephone, always make certain the line is clear before you dial.
When the children use the telephone, ask them to be considerate, too.
Replace the receiver properly when you finish your call.
Thank you!

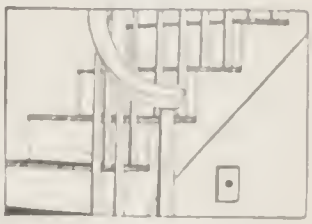
Building your dream home soon?
Don't forget to plan ahead for concealed telephone wiring

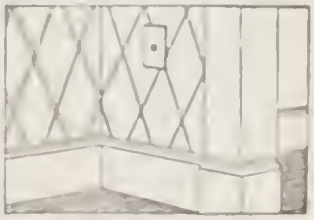
Whether you'll want only one or a number of telephones, the time to plan for built-in concealed wire facilities is when your home is still in the blueprint stage.

For then you can be certain you won't later have to tear up part of your flooring or bring the wire in along the baseboard.

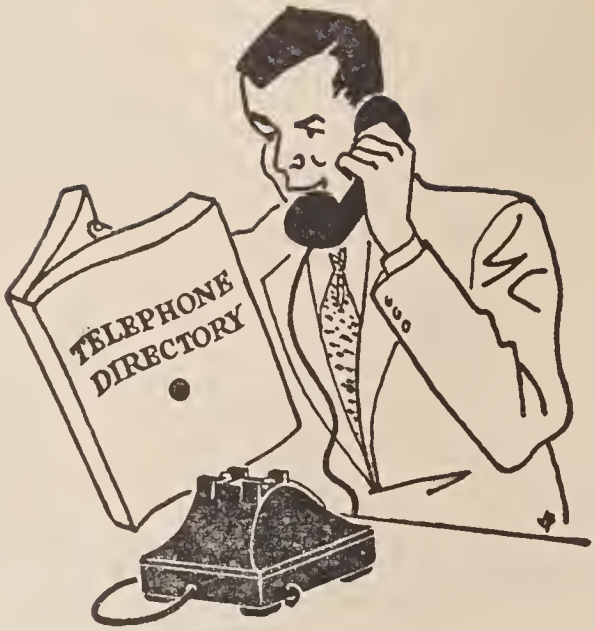
So decide in advance on convenient locations, and specify that conduit be installed during construction. This provides a metal tube through which wires may be drawn when your telephone is installed.

Our Architects' and Builders' Service will help you in every way possible at no charge.





The Pacific Telephone and Telegraph Company



Saves time...

to look up numbers before you call

You'll get numbers right the first time if you look up those there's some question about. Telephone numbers have a way of getting twisted when you rely on memory alone. So, if there's any doubt, look up the number. Thank you.
